The Apple

The apple with blueberry farewell
The apple I ate for lunch
The apple that tastes like candy
The apple I left for wasps
The apple with blood from gums
The apple with inner snow
The apple that fell in wind
The apple with blood from sin
The apple that picked my hand
The apple with a core of good
The apple on teacher's desk
The apple with the vestige of myth
The apple between blossom and bruise
The apple with poppycock and bushwa
The apple without bitter gall
The apple touched by disease
The apple for alcohol
The apple sprouting leaves
The apple inside its pie
The apple Ray called an apple
The apple with Sodom's ash
The apple inside its roundness
The apple in a spray of death
The apples in Eve's caress
The apple dressing pork
The apple with Adam's choke
The apple without a tree
The apple in French glaze
The apple no student gave to me
My apple
